PERSONAL DETAILS

- Total Experience 1 Year 4 Months
- Current Location Bengaluru
- Date of Birth Mar 10, 2001
- Marital Status Single/Unmarried

SKILLS

- Client Relationship Management
- Project Execution
- Software Development
- Requirement Gathering
- Incident Resolution
- Troubleshooting
- Design Optimization
- Module Development
- Debugging
- Web Designing
- Complex Problem Solving
- Algorithms
- Flow Chart
- Problem Solving
- Time Management
- Adaptability
- Creativity
- Negotiation

TECHNICAL SKILLS

- Javascript And JQuery
- Python
- Java
- C Programming Language
- C++
- GIT
- Html/Css
- Front End
- React.js
- Node.js
- IIS Server

PROFILE SUMMARY

A software developer with a keen interest in web development and design. Expert in HTML, CSS, JavaScript, PHP, and WordPress. Developed and maintained several websites and web applications for various clients and projects. A fast learner who is always eager to learn new skills and technologies.

EDUCATION HISTORY

Graduation

Course	B.Tech/B.E.(Computers)
College	Jayam College of Engineering and Technology, Nallanur
Year of Passing	2022
Grade	80%

WORK EXPERIENCE

Dec 2022 to Present

Junior Software Developer at Essel Synerg Tech Pvt Ltd Bangalore

- Collaborated with developers to design algorithms and flowcharts to optimize the software development process.
- Conducted comprehensive system analysis to finalize technical and functional specifications, low-level design documents, use cases, and build scripts.
- Contributed to the design, development, testing, troubleshooting, and debugging of software to ensure the delivery of high-quality solutions.
- Designed enhancements and updates for subsystems of end-user applications software running on local, networked and Internet-based platforms.
- Proactively identified and analyzed defects and inconsistencies in software programs, resulting in optimal performance and functionality.
- Successful implementation and testing of software at client locations, leading to on-time project deliveries.
- Maintained the technical integrity of project deliverables, consistently meeting client requirements and specifications.

- MySQL
 - MongoDB
 - Photoshop
 - Arbortext
 - Github
 - Native React
 - Native Javascript

INTERNSHIPS

Shiash Info Solutions Private Limited, 2 Months

- Clear and effective communication of information through graphical or pictorial means.
 - Provide necessary insights into complex sets of data and information, and convey ideas effectively.
 - Achieve a balance between softwares function and form.
-

PROJECTS

React App for Login Form, 2 Months

- React application will need to handle situations where a user tries to access a private page before they are logged in, and you will need to save the login information once they have successfully authenticated.
- create a mock API that will return a user token, build a login page that will fetch the token, and check for authentication without rerouting a user.
- If a user is not authenticated, you will provide an opportunity for them to log in and then allow them to continue without navigating to a dedicated login page.
- two different versions: a web version and a native version for use with React Native.
- It's a simple login page for using react.

CRUD operations React App, 4 Months

- CRUD, otherwise known as creating, reading, updating, and deleting are the fundamental operations of full-stack websites. Without these operations, nothing else can be done.
- The application I made is a simple project details manager react application with CRUD operations.
- Create a new project listing ,Update a current project listing,Delete a current project listing,View the projects(& individual project) listed.
- This project contains React js,Node js,MongoDB and Native.
